Impact of Sanitation

Health Impact

The Bill and Melinda Gates Foundation (2017) found 46% higher cases of diarrhoea, 58% higher cases of wasting and 78% higher cases of worms among children in non-ODF areas compared to ODF-areas.

Financial and Economic Impact

UNICEF (2017) estimated that each family in an ODF village in India saves Rs. 50,000 per year on account of avoided medical costs, time savings and value of lives saved.

Impact by way of lives saved

WHO (2018) estimated that the SBM will account for over 3 lakh avoided diarrhoeal deaths by 2019. Over 1.4 crore Disability Adjusted Life Years will also be avoided.

Impact on gender equality

(IMF) 2017 reported 10% reduction in time spent by women involved in household and childcare, 1.5% increase in the proportion of women in the workforce and 1.4% increase in real GDP, due to improved access to sanitation facilities.
